## **DETAILED ACTION**

### ***Examiner's Amendment***

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Please cancel claims 1-10 and 15-18

### ***Reasons for Allowance***

2. The following is an examiner's statement of reasons for allowance: the prior art fails to teach, disclose, or suggest, either alone or in combination, a method of forming a varactor comprising the steps of forming contact regions of a first conductivity type in a well region having said first conductivity type, and forming gate layer contacts to a gate conductive layer, wherein said gate layer contacts overlie an isolation region as instantly claimed, and in combination with the additional method steps. For example, figure 8 of Lin et al. (US Pat. No. 6,316,805 B1) fails to teach the formation of gate layer contacts overlying the isolation structure (312), and the formation of a well (320) at each side of the isolation structure (312), so that both contact regions (314) are formed within the well (320), as required in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
